

Efficient Product Rebates

Commercial Solar Rebate Guide

The following table lists the product requirements and rebates available for energy-efficient commercial solar thermal products. For more information please visit our website efficiencyns.ca/business.

If your utility bill is less than \$3,800 monthly and you have not yet purchased your products, your business may qualify for rebates in addition to those listed here.

| Product | Criteria | Rebate |
|---|--|--|
| Solar Domestic Hot Water (DHW) Systems Solar Space Heating Systems | <ul style="list-style-type: none">• Energy analysis must be submitted with application• Rebates are only available for projects that offset electricity. Application must be approved prior to the purchase or installation of any solar equipment• Must be CSA approved• Application must be approved prior to the purchase or installation of any solar equipment | Determined on a project-by-project basis. Maximum of \$500 per panel. |

Your energy analysis can be obtained from your contractor. RETScreen is Efficiency Nova Scotia's preferred modelling software.

Efficient Product Rebates

Commercial Solar Rebate Worksheet

For assistance in completing this Commercial Solar Rebate Worksheet please refer to the [Commercial Solar Rebate Guide](#).

To receive your rebates, enter the product details in the table(s) below. To prevent unnecessary delays in the processing of your application, please complete all of the information requested.
